RE: Headgate on Bonnie Arkoosh Ranch.

Dear Mitch,

I'm writing in regards to the headgate and measurement structure on the north side of the river. Some work was done, but water flows around and under this structure, making it unusable to control and regulate water. Also it would be real convenient for my deputy and I to get to this structure if you could put a walk bridge back across the river where the old walk bridge used to be. It was on the 4 X 5 concrete blocks approximately 75 feet down stream from Shorock's diversion.

If you have any questions, feel free to contact me.

Sincerely,

A handwritten signature in cursive script, reading "Lee R. Peterson".

Lee R. Peterson
Watermaster
